

# Declaration of Conformity - PPWR

Packaging and Packaging Waste Regulation (EU) 2025/40 (PPWR) as Producer

Date of issue: 12.08.2026

## Subject of the Declaration

This declaration applies to the packaging used for the placement on the European Union market of products marketed under the Contrinex® brand.

The packaging consists of combinations of corrugated cardboard, paper-based materials, plastic packaging components, labels, adhesives and transport packaging supplied by approved packaging suppliers and identified within Contrinex's packaging master data and bill of materials.

Packaging components are traceable through Contrinex ERP records, supplier documentation and packaging bills of materials associated with the relevant finished products.

## Declaration

This Declaration of Conformity is issued under the sole responsibility of Contrinex AG.

Contrinex AG declares that the packaging covered by this declaration is managed and assessed in accordance with the requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR), as applicable to the packaging concerned.

This declaration is based on packaging specifications maintained by Contrinex, packaging bills of materials and weight data, supplier information available at the date of issue, and supporting technical documentation maintained by Contrinex.

Contrinex has established a compliance programme to identify packaging materials, collect supplier information, assess applicable PPWR requirements, and maintain the technical documentation necessary to support this declaration.

The information contained in this declaration corresponds to our present knowledge and to the information made available by our suppliers and service providers on the date of issue. This declaration will be reviewed and updated as additional information becomes available or as regulatory requirements evolve.

## Additional Information

Contrinex has:

- Identified the packaging materials and packaging suppliers used for products placed on the EU market;
- Integrated packaging components into finished goods bills of materials;
- Established and maintains packaging weight information for packaging components;
- Established a programme to fulfil applicable Extended Producer Responsibility (EPR) obligations and is completing the required registrations where applicable;
- Implemented a supplier information collection process covering material composition, recyclability and recycled content;
- Requested compliance information from packaging suppliers and maintains records of received declarations;
- Confirmed, based on available information and supplier declarations received to date, that no intentionally added PFAS substances are known to be present in the packaging materials concerned.

The assessment of certain PPWR requirements relies on information provided by packaging suppliers and is being progressively completed as supplier responses are received. Contrinex maintains supporting technical documentation and will update such documentation as additional information becomes available.

Andrew Whitlow, COO
