Information on Compliance with Regulation (EU) 2025/40 (PPWR)

S+S Regeltechnik GmbH confirms that the packaging we place on the market within the European Union is assessed with regard to the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR).

Where the relevant requirements apply as of 12 August 2026, the packaging placed on the market by S+S Regeltechnik GmbH complies with the requirements applicable to it under Regulation (EU) 2025/40.

In particular, compliance with the restriction on lead, cadmium, mercury and hexavalent chromium set out in Article 5(4) of Regulation (EU) 2025/40 is ensured. The sum of the concentrations of these substances in packaging or packaging components does not exceed the permitted limit of 100 mg/kg (100 ppm).

The conformity assessment is based on the supplier declarations, material specifications, technical data sheets and other appropriate supporting evidence available to us, where required.

The associated technical documentation and supporting evidence are maintained by S+S Regeltechnik GmbH in accordance with the applicable legal requirements and are made available to the competent authorities upon request.

This general information applies to packaging placed on the market by S+S Regeltechnik GmbH unless otherwise specified in product- or packaging-specific information.

Nuremberg, 12 August 2026

i.A. 

Viktor Bartel, Process Manager / Sustainability Manager

S+S Regeltechnik GmbH
