Statement regarding the implementation of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)

Dear Valued Customer,

Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR) introduces new requirements for packaging and its associated documentation.

Kobold Messring GmbH uses exclusively purchased packaging materials for the shipment of its products. We do not design or manufacture packaging ourselves but source it from qualified suppliers.

To implement the new requirements, we are currently working closely with our packaging suppliers to obtain the necessary technical information, declarations of conformity and supporting documentation for the packaging materials we use. This information forms the basis for the preparation and maintenance of our own PPWR documentation.

As the PPWR is being implemented in stages and the corresponding documentation processes throughout the supply chain are still being established, we have not yet received all of the required documentation from our suppliers for every packaging material currently in use.

We are actively following up on this process and will continue to update our documentation as soon as the relevant information becomes available.

Thank you for your understanding. Should you have any questions, please do not hesitate to contact us.

Kobold Messring GmbH
